

DHAKSHINAMOORTHY

Website Developer - React - Angular - Next - Node

+91-82486-80387 @ dhakshinamoorthi.be@gmail.com <https://www.linkedin.com/in/Dhakshinamoorthi>
Erode, Tamilnadu - India

SUMMARY

I am a results-driven Website Developer with over 3 years of experience in building dynamic, user-focused applications using cutting-edge technologies like ReactJS, AngularJS, and more. I excel in translating user requirements into high-quality code and delivering exceptional user experiences while collaborating in agile environments to achieve project success.

EXPERIENCE

Product Engineer

Gritstone Technologies

04/2023 - Present Kozhikode, Kerala - India

A technology company providing solutions through web applications.

- Developed and delivered tailored web applications using a diverse tech stack including Angular, ReactJS, .NET, and SQL, providing solutions for clients in industries such as Accounting, Inventory Management, CRM, and Billing Software.
- Enhanced application performance by optimizing front-end UI components and implementing reusable and simplified UI elements to improve user experience and reduce development time.
- Collaborated within agile teams, contributing to project planning, sprint reviews, and cross-functional development efforts to ensure high-quality and timely deliverables.
- Worked closely with stakeholders and team members to gather requirements, define project scope, and deliver features that align with business goals.

Frontend Developer

Lirctek Technologies

09/2021 - 12/2022 Bangalore, Karnataka - India

An organization focused on delivering software solutions and applications.

- Designed and developed stable, scalable web applications for US-based trucking associations (Awako), leveraging best practices in front-end development and modern web design to enhance performance, usability, and user experience.
- Transformed design mock-ups into responsive, interactive user interfaces using ReactJS, ensuring compatibility across multiple devices and platforms.
- Built-in Middleware - Includes Redux Thunk for handling asynchronous actions. For State management Redux toolkit have been used
- Optimized web applications with third-party libraries and performance enhancing tools to improve load times and user experience.
- Collaborated with cross-functional teams during product updates, maintaining organized workflows and version control via GitHub to ensure efficient project delivery.

Trainee

Skill Safari 01/2021 - 08/2021 Coimbatore, Tamil Nadu - India

An educational institution providing IT training.

- Completed MERN stack training, building full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Gained hands-on experience in developing RESTful APIs, implementing user authentication (JWT, OAuth), and ensuring secure, responsive web applications.

SKILLS

JavaScript	React	Angular	Nextjs
HTML	TypeScript	Express.js	
Responsive Web	Node.js	Express	
Agile	Azure	CRM	CSS
GitHub			
JWT	MongoDB	REST	SQL

EDUCATION

Bachelor of Engineering

Builders Engineering College

08/2016 - 09/2020

Kangayam, Tamil Nadu - India

KEY ACHIEVEMENTS

Boost Optimization

Developed and optimized scalable React.js applications, improving performance by **30%** using React.memo, lazy loading, and efficient state management (Redux Toolkit)

CERTIFICATION

Alchemist - Full Stack Development (MERN)

A comprehensive full-stack development program focused on (MongoDB, Express.js, React.js, Node.js)

INTERESTS

Artificial Intelligence - AI
